

WE MAKE YOUR HOUSE FEEL LIKE A HOME.

CONTINENTAL EXTERIOR FILMS

WE ARE ALL ABOUT LIVING SURFACES

WITH US, HOME IS MORE THAN JUST A PLACE - IT'S A FEELING

Home is more than just a building with four walls and a roof. It is a place full of small and big moments. From your child's first step to relaxing on the sofa at the end of a long day.

Short: Feeling comfortable at home is essential, and the surfaces around you play a big role in that. This applies not just to the inside of your home but also to the exterior - like the facade, doors, and windows. These elements define the look and character of your house more than anything else.

WOODEC & MATTEX ... AND IT FEELS LIKE HOME

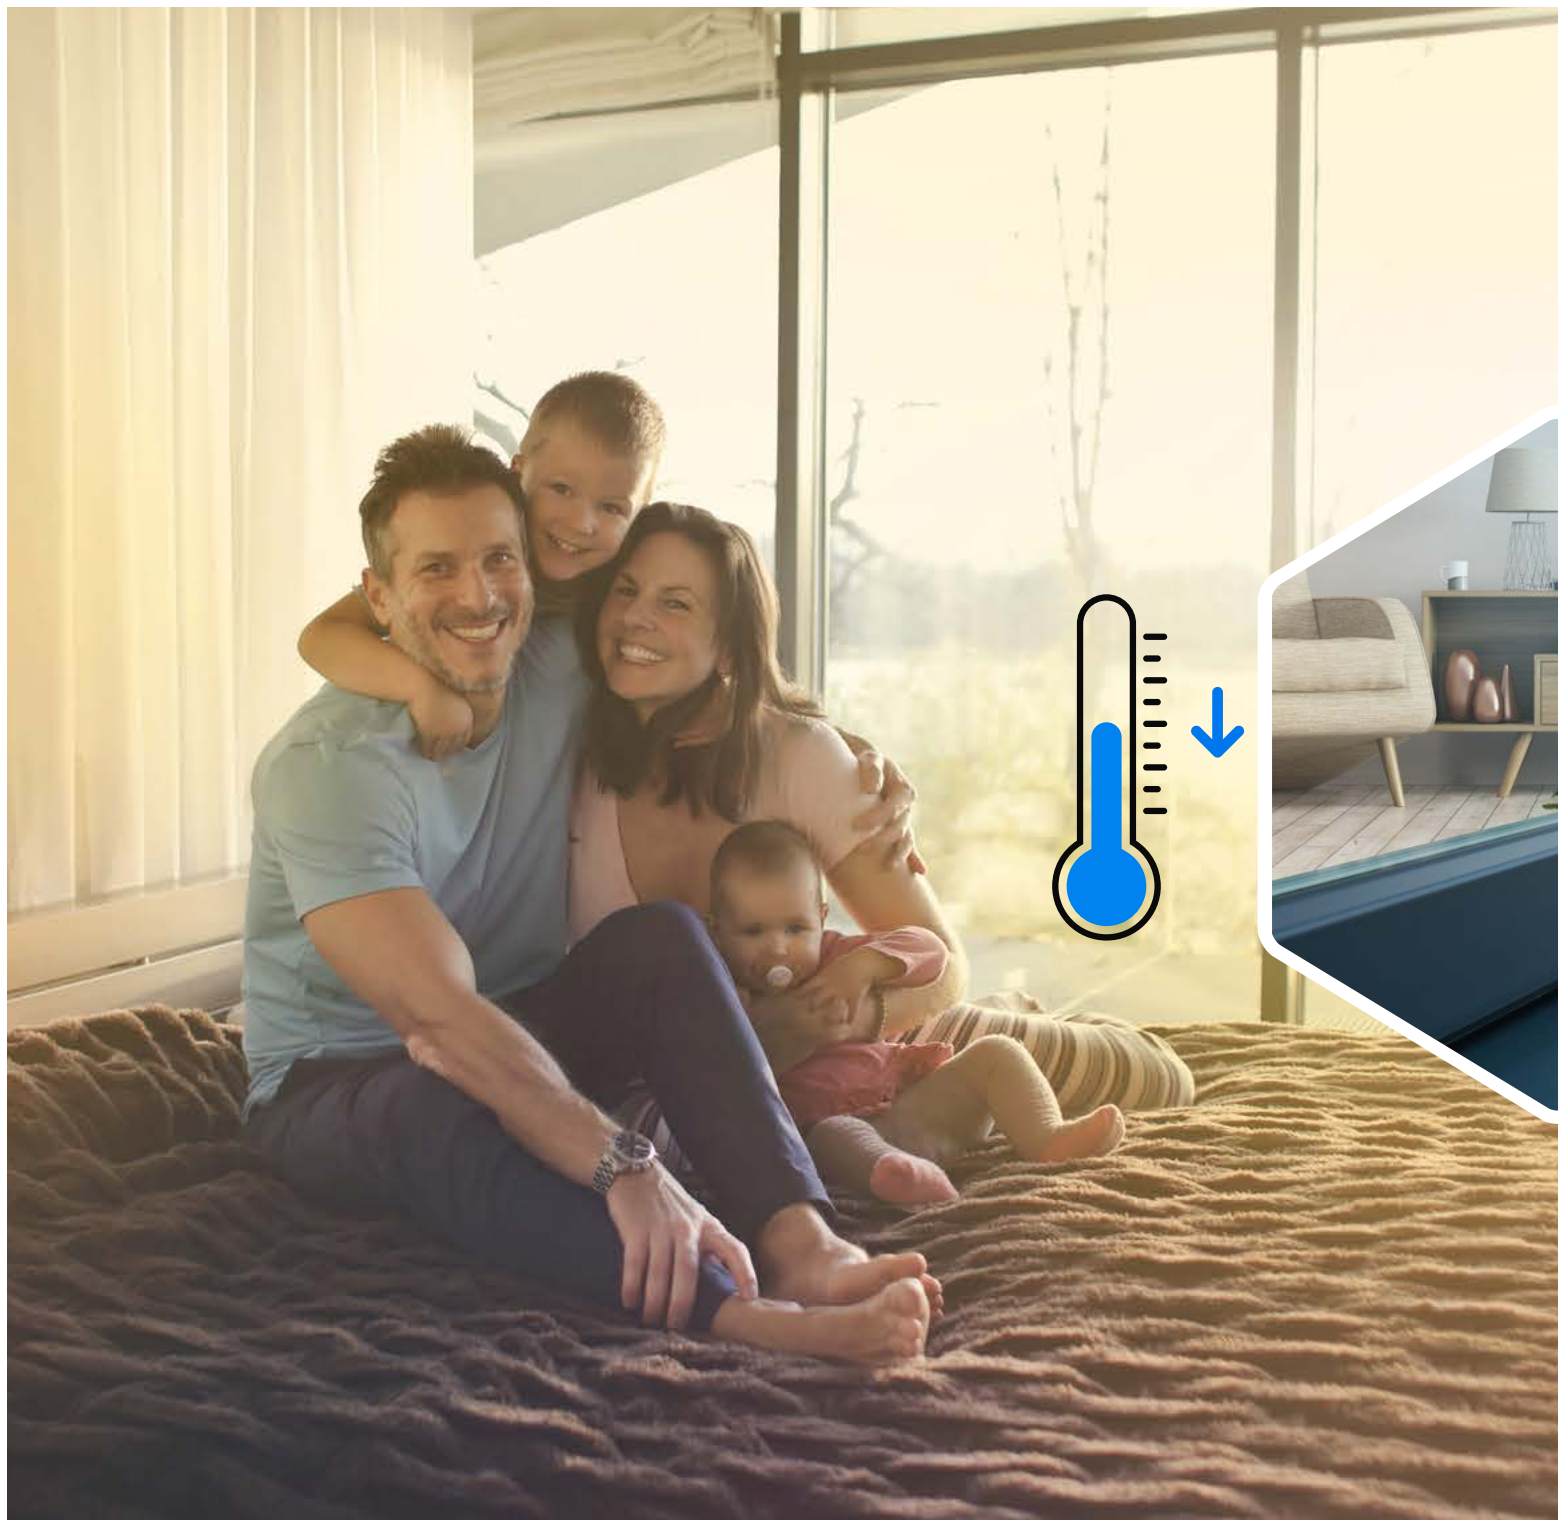

WE MAKE WINDOWS AND FACADES STAND OUT

Being at home means feeling good. For our woodec decors, we are inspired by nature. Our Scandinavian-style wood decors stand out with their natural look and vibrant colors.

Deeply embossed and very matte, the surfaces look like real wood.

The perfect partner for woodec: the matt-sandy mattex surfaces. They add significant value to building components and have the look and feel of powder-coated aluminum.

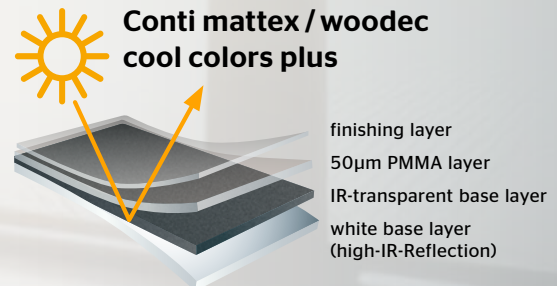

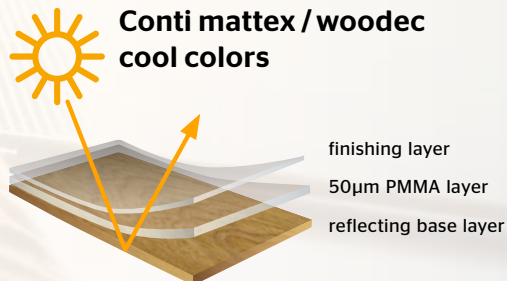

COOL COLORS-TECHNOLOGIE

WITH US YOU ALWAYS KEEP A COOL HEAD

Black, grey & Co. – If you like dark window profiles, you'll love the cool colors technology. At Continental Exterior Films, we have developed a process that protects the functionality of the window and enables dark colors and decors to be used for window profiles without overheating. This considerably extends the service life of the windows and preserves their appearance for a long time.

HOW THE COOL COLORS WORKS

DIVERSITY MAKES THE DIFFERENCE

FROM FACADE TO OUTDOOR KITCHEN,
WE MAKE ANYTHING POSSIBLE

A home must meet many different needs, both emotional and practical. Our products are just as versatile. Whether used for façades, window profile coatings, garage doors, or even outdoor kitchens, they always look stylish. Plus, they're easy to maintain, as most dirt can be cleaned off with just water and dish soap.

Here are the key benefits of Continental outdoor films:

- › A perfect mix of design and function
- › Durable, recyclable, and weather-resistant
- › Minimal cleaning and maintenance needed

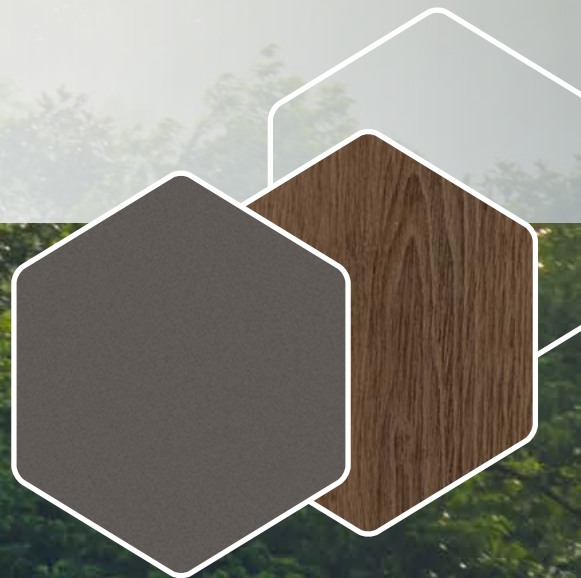

SURFACES FOR TODAY. AND TOMORROW.

WITH US, WINDOWS GET A SECOND CHANCE

Since 2021, we have been a premium partner of Rewindo, a network that promotes material recycling and achieved an output of more than 43,000 tons of recycled material from old windows, roller shutters and doors in Germany in 2023. Window profiles coated with Continental exterior films can be recycled directly without any extra processing.
